PROFILE

IT Technical Support Engineer with 12 years of experience in hardware, network engineering, and software applications. Proven success in customer service and issue resolution with notable roles in the Ministry of Education, a leading bank, and a real estate firm in Saudi Arabia. Known for strong interpersonal skills and a focus on tailored solutions. Seeking new opportunities to apply my expertise in IT support.

WORK EXPERIENCE

Al Othaim Investment Company, Riyadh.

IT SUPPORT ENGINEER

Sep 2023 – Present

- Azure and Microsoft 365 Administration: Assist with managing Azure infrastructure, including virtual machines, storage, and networking. Support Microsoft 365 tasks such as user account management and handling email, SharePoint, Teams, and OneDrive. Help implement security measures, monitor performance, and ensure policy compliance
- Helpdesk Management: Lead the IT helpdesk team, providing Tier 1 and 2 technical supports for hardware, software, and network issues. Ensure prompt resolution of issues, maintaining a 95%+ customer satisfaction rate.
- Managed Software Licenses: Oversaw licensing for a diverse range of design and visualization tools, including Autodesk products (AutoCAD, 3ds Max), V-Ray, Corona Renderer, Adobe Creative Suite, Itoo Forest, Lumion, and SketchUp.
- License Administration: Administered and tracked software licenses to ensure compliance with vendor agreements and optimize software usage across departments.
- System Monitoring & Documentation: Monitor IT systems, identify potential issues, and maintain comprehensive documentation of IT processes. Conduct user training sessions to improve the use of IT resources

Al-Rajhi Bank, Riyadh, Saudi Arabia
